## OUR LOCAL OPTIC.

Much needed improvement is being made to the sidewalk in front of Mr. R. E. Pipkin's store, at the corner of John and Walnut streets. There are several other places in town that need attention.

The contractors are pushing the work on the sewerage system. They have opened deep trenches right here in town and a great many people are fearful lest an epidemic of malarial fever will be the result.

Mr. J. A. Best, of the Fremont section, was in the city Saturday and before leaving for Trinity college to commence the Fall session, called at the ARGUS office and ordered the paper sent to his address.

Mr. N. G. Price has again accepted control of Mr. R. W. Taylor's fish business in this city. He has managed this business for Mr. Taylor for several years and is well acquainted with the trade. His stall will, as heretofore, be supplied with the finest varieties that can be caught on the North Carolina Coast.

The first new cotton made its appearance on this market Friday. There were two bales belonging to Mr. X. Korragey, of Mt. Olive. This is only the beginning. Walnut street will soon be lined with country carts bearing the fleecy staple. It is then that the merchants will be busy from morn till night and business of all kinds will take on new life.

The death of Mr. A. J. Barnes occurred last Saturday at his home in Fremont. He had been an invalid for a number of years and while his death was not unexpected, it nevertheless casts a shadow of gloom over the household and his wide circle of friends will deeply mourn his loss. The people of that town will long remember him for his many acts of benevolence.

Mr. R. E. Pipkin, the well known and everywhere popular manager, will culminate his excursion ventures for this season in a trip to Richmond on the 15th instant. Richmond is one of the fairest of Southern cities and holds numerous places of interest for Southern people. The train will leave Goldsboro on the morning of the 15th and return on the evening of the 16th. The fare for the round trip from Goldsboro is \$2.50.

Mr. Geo. R. Bell, a popular travelling salesman whose home is in Mt. Olive, where he is extensively engaged in farming, was in the city last week with tobacco on the floor of the Farmers' Warehouse. He expressed himself as well pleased with the price paid for his tobacco and this is considered significant when it is stated that he is a large grower of tobacco and has heretofore sold his product in both Kinston and Wilson.

The driven well on Walnut street in front of the G. U. & R. Co., situated in the dense shade of a sycamore tree, is an inviting spot during this hot weather. The water from the well is clear and cold and affords a refreshing draught to hundreds of people daily. This pump is fast becoming a rival of the old "Centennial" pump, at the corner of Walnut and John streets, only a few yards away.

Mr. F. B. Edmundson, the Walnut street "hustler," is daily receiving large quantities of fall and winter goods, which his force of clerks are displaying for the inspection of the public. Mr. Edmundson has well earned the reputation of being a hustler by his indomitable energy and progressive manner of doing business. His trade increases from season to season and he is constantly adding new lines and a larger and more varied stock, from which the public can supply their wants.

Just as soon as a man acquires his ideal he begins to look around for a superior one.

## RE-POPULICAN CONVENTION.

### A FUSION COUNTY AND LEGISLATIVE TICKET NOMINATED.

With the "Brother in Black,"  
Who Does the Voting, Left  
off—and Out.

It is a "Caucus" Ticket.

Notwithstanding the fact that the slogan upon which the Populist party was formed was anti-"Caucus," anti-"Trust" and anti-"gold bugs," it has studiously adhered to caucuses; it has openly pondered to trusts and has invariably fused with and voted for "gold bugs" on every opportunity.

And so Saturday, when the Wayne county Populist convention met in this city, for 2 hours its session was with closed doors—in "caucus," the purpose of which was to formulate a fusion ticket, and when everything was "cut and dried" the doors were thrown open and the convention "called to order" by J. H. Caldwell, chairman of the Populist County Executive Committee, who requested Mr. M. E. Cox to act as temporary chairman, and T. O. Kelly as secretary, and then the temporary organization was made permanent, but old man Caldwell continued to "run" the meeting, just the same.

It was decided to nominate the candidate for the Senate from this county to the Senatorial convention first, and Dr. J. E. Person was thereupon unanimously recommended.

The following county ticket was then read off from the "slate" and duly nominated:  
House—Nathan A. Howell, Thos. I. Sutton.  
Sheriff—M. B. Farmer.  
Clerk—M. E. Cox.  
Register of Deeds—Walter C. O'Berry.  
Treasurer—Jas. H. Johnson.  
Surveyor—Left open.  
Coroner—J. H. Caldwell.  
Commissioners—T. E. Hodgins, Z. P. Davis, Jno. W. Daly.

There were, by actual and accurate count, seventy Populists in attendance, and we believe this is about the quota of that party's strength in Wayne county, who, with about fifty white Republicans, have arrogated to themselves all the offices, and while they would not permit a negro to have a single office on the ticket or any representation in the "caucus," they look to them for their entire vote under the "party" lash.

In the "deal" the Republicans are given Sheriff, Register of Deeds, one member of the house, and Hodgins for "County Commissioner." The colored people of the county, we understand, who do virtually all the voting, asked for representation, but the white Republicans "winked the other eye," and the Populists knew that it meant, "we'll hold the 'nigger' in line, go ahead and give us the offices"—and there you are.

"Anything to beat the Democrats"—provided we get the offices, —is the cry of the Populists. But is this the sentiment of the colored man, who does the voting, but is ignored on the ticket? Did not the colored people have better government, better schools, better wages, and better times generally when the Democrats were in power? They know that they did. Why then should they vote for "anything to beat the Democrats" when they themselves are ignored on the ticket and are the greatest sufferers under fusion rule?

## DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness—that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## IS NOT THIS A FARCE?

The Waynesville Courier—the home paper of Judge Norwood—says: "Judge Norwood has a letter from Windsor, Bertie county, saying the sheriff of that county will recognize Judge Norwood as the proper person to hold the court there, beginning September 15th."

The sheriff of Warren, we believe, notified Judge Eugene D. Carter, the appointee to "fill the vacancy created by the resignation of Judge Norwood," that he, the sheriff, would "recognize" him, Judge Carter, as the rightful judge, and therefore, the latter will hold Warren court.

There is but one judge, nor can there be, of the Twelfth District—the duty of whom it is to hold the courts of the Warren-Bertie circuit, and therefore it must be either Judge Norwood or Judge Carter. There cannot be a judge de facto, in our opinion, and therefore, Bertie court, held by Judge Norwood, or Warren court, held by Judge Carter, must be illegal. To have matters going on as at present is an injustice to one or the other of these claimants, and the people who happen to fall under the administration of the wrong person as well.

We believe that Judge Norwood is still the judge of the Twelfth District, and therefore entitled to hold the courts. In this we take no cognizance of the obligation of Judge Norwood to abide by the personal agreement he entered into with certain parties, but as he repudiates the act of others to resign him out of office, and denies his consent to the tendering of his resignation by another, in law we cannot but believe he is still the rightful judge. However, a judicial determination of the matter is pending and will be concluded during the next month. In view of this, it occurs to us, and we say this without any predilections as to individuals concerned, that it would be much more seemly for the courts to be held by one person, and him the one who was in the office and still claiming it, until the Supreme Court can decide the matter definitely. Mr. Carter's rights, if he has any, will not be impaired thereby, and certainly the dignity of the bench will be better maintained.

It does occur to us that the present procedure is a farce, unbefitting the judiciary.—Raleigh Post.

And so this is but another of the myriad of travesties and sickening sensations and revolting outrages incident to the imbecile Russell-Butler regime in North Carolina, which, as the ARGUS has said before, is like some horrible "nightmare of State," an idiot's dream of Government, a chapter in our State's history so replete in all that is damnable and disgusting that future generations will surely discredit it as the vapors of a pessimistic fictionist fused by some flagrant inadvertency into the chronicles of our time.—Ed. ## CONGRESSIONAL CONVENTION

Democrats of the Second Congressional District Meet and Endorse White Government and the Chicago Platform.

Wilson Daily News.

The Democrats of the Second Congressional District met in the Court House here to-day (Wednesday), at 3 o'clock.

The convention was called to order by the chairman, Hon. W. A. Dunn, who called Hon. B. F. Aycock to the chair as temporary chairman. Mr. Aycock was conducted to the chair by two of the delegates and opened the convention with a ringing speech. He said that the issues before the people of North Carolina now are as important as those which confronted our forefathers in the Revolution. Then it was freedom from an English King—now from negro rule. Our fathers had redress to bullets and we the more powerful agent, "the ballot."

The same spirit now in spurs our people which inspired our fathers at Boston, and at Mecklenburg. The same issues, he said, confronted us now as in '78. Then our people overthrew Republican rule, and now we must fall in line and do it again. He declared it to be the duty of all to sacrifice individual ambition to the good of the party and the State. This speech was full of enthusiasm and was much applauded.

On the call of the roll it was found that the following counties were represented: Halifax, Lenoir, Edgecombe, Bertie, Wilson, Warren and Wayne. Counties not represented were: Northampton and Green. On motion of the Hon. Don Gilliam, the temporary organization was made permanent.

The following Committee on Resolutions was appointed: Bertie, F. D. Winston; Edgecombe, L. V. Bassett; Halifax, W. E. Daniel; Lenoir, J. W. Grainger; Warren, J. H. Kerr; Wilson, S. A. Woodard; Wayne, J. B. Lane.

The committee reported the following resolutions:

Resolved, That we hereby endorse the principles of the Chicago platform, and pledge ourselves to secure the enactment of those principles into law; and that for the protection of our property, our liberty, our good name and our homes, we declare that the white race must administer all the laws in North Carolina.

And that in furtherance of these principles and policies this body shall adjourn subject to the call of the Chairman of the Democratic Executive Committee.

Francis D. Winston, Ch. m.  
L. V. Bassett,  
W. E. Daniel,  
S. A. Woodard,  
J. H. Kerr,  
J. B. Lane,  
J. W. Grainger.

Mr. Don Gilliam in a few well chosen words, announced that the Edgecombe delegation had come to the convention with the purpose of placing before that body the name of one of their most distinguished citizens, Dr. William Mercer, but that Dr. Mercer, ever ready to sacrifice any personal ambition for what the majority deemed best for the party, wished that his name be not put forward.

The resolution to adjourn subject to the call of the chairman was then unanimously adopted, a telling speech was made by Mr. Dunn which was heard amid enthusiastic applause.

The Executive Committee is composed of the following gentlemen, with the Hon. W. A. Dunn, Chairman:  
Bertie—F. D. Winston.  
Halifax—W. A. Dunn, Scotland Neck.  
Edgecombe—Don Gilliam, Tarboro.  
Lenoir—J. W. Grainger, Kinston.  
Greene—L. V. Morrill, Snow Hill.  
Warren—J. H. Kerr, Warren.

Wayne—Jos. E. Robinson, Goldsboro.  
Northampton—W. H. Joyner, Garysburg.  
Wilson—W. A. Finch, Wilson.

The public schools teach almost every known branch of study but the one most important branch of all. What does it profit your son if he has an intellect like a Newton, and is mentally an Admiral Crichton, if he has a weak and puny body and not the remotest idea of how to care for his health? A boy should be taught from the start that his health is his most precious endowment. Without health, all the talent, all the genius, and all the ambition in the world are worthless. A boy should be taught that success in any walk of life, that happiness, and life itself, are dependent upon his care of his health.

When a man feels that he is losing his health and vigor, when his chest is tight, when he is no longer clear in his mind, when the sparkle of his eyes is no longer in his eyes, he should work less, rest more and resort to the right remedy to restore his bodily vigor. Dr. Pierce's Golden Medical Discovery is a natural medicine—a scientific medicine. It does no violence to nature. It works with and not against nature. It promotes the natural processes of secretion and excretion. It imparts vitality and purifies the blood. It gives plumpness and color to the cheeks, sparkle to the eyes, steadiness to the nerves, strength to the muscles and the animation of health to the whole body. It makes the appetite keen and hearty. It is the great blood-maker, flesh-builder and nerve-tonic and restorative. Medicine dealers sell it and have absolutely nothing else "just as good."

"I was afflicted with pimples and boils, and running sores on face and neck," writes Robert S. Wert, Esq., of No. 565 Galloway Ave., Columbus, Ohio, "and after using Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' and was cured."

Constipation is the commonest beginning and first cause of many serious diseases and it should always be treated with Dr. Pierce's Pleasant Pellets used in connection with the "Discovery." These are the most perfect natural laxatives and permanently cure.

## A CARD.

I think and feel that I owe to the good people of Wayne County an explanation, and desire to say that on account of some seeming influences against me in the late Democratic County Convention, I felt aggrieved, and while in this state of mind, without fully and carefully considering the matter, I expressed myself unguardedly.

Upon mature reflection, and knowing it is infinitely more noble to suffer injustice than to commit a wrong, I, therefore, take this occasion to say that under no circumstances will I aid or abet a cause that would be detrimental to the people who have not only honored me, but have been my steadfast friends.

I am not a candidate for the office of Sheriff.

I propose to be consistent to the obligation that rests upon me as a delegate to the convention that nominated the splendid ticket which is presented for the suffrage of the good people of Wayne county.

I am, if anything, loyal to the highest interests of the people, and shall take my stand with the good people of the county, as I have always heretofore, and intend still to do.

I hope with this statement I shall set the matter at rest, and that I shall never be a party to any act that shall disrupt the Democratic party or be detrimental to the welfare of our people. Let us rally around our ticket and elect it.

I desire to thank the good people of Wayne county for the honors and kindness of the past and hope at all times to merit their kindness and good will.

Respectfully,  
JAMES H. GRANT,  
Goldsboro, N. C., Sept. 1, 1898.

## Not the Wisest Way.

It is not always best to wait until it is needed before buying a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Quite frequently the remedy is required in the very busiest season or in the night and much inconvenience and suffering must be borne before it can be obtained. It costs but a trifle as compared with its real worth and every family can well afford to keep it in their home. It is everywhere acknowledged to be the most successful medicine in the world for bowel complaints. For sale by M. H. Robinson & Son, Goldsboro, and Miller's Pharmacy, in Goldsboro and by Jno. R. Smith at Mt. Olive.

## SATURDAY SERMON.

For Sunday Perusal and Every Day Guidance.

Let every man prove his own work—Galatians, vi. 4.

It may seem a very strange thing to say of this intelligent age, but the plain truth is that the average man does not use his reasoning powers to any purpose. Some good people tell us that it is dangerous to use our minds freely, especially on religious subjects, and assure us that it is destructive of faith. But our impression is that religion more than any other subject demands the exercise of the intellect, and that the faith which will stand the test of life's strange experiences and burn with undimmed flame in the midst of them all must be based on conviction. Mere impulse is as hurtful in religious matters as it is in business or in scientific research. A blind faith is worthless when compared with open eyed and open minded faith. It is sure to desert us in the pinch of circumstances.

If we reasoned more about ourselves about our duty and our destiny, we should be far stronger and nobler than we are. It is because we do not reason enough that we both fail and fall. The same intellectual energy which makes discoveries in astronomy or chemistry if applied to the conduct of life would form a foundation on which to build an ideal character.

Does the man who is addicted to vice in any of its many phases use his brains? On the contrary, he ignores them, pushes his logical faculty into a corner, and foolishly allows his enjoyment of a temporary pleasure to interfere with his lasting good. If he were to spend half an hour a day in examining himself, and could do it as impartially as the naturalist examines a weed or an insect, would he voluntarily allow himself to be poisoned by an evil habit or would he expect to avoid the consequences of immoral courses? His difficulty is that he does not think half enough, but even makes an effort not to think at all, knowing, in a vague sort of way, that if he thinks he will be forced to condemn himself. If we could persuade men to think more profoundly about their souls, about consequences which are the effects of causes, we should be a benefactor of our race.

The man who has an aim is the man who thinks. The man who accomplishes something worth his while has a clear idea to work out. The man who drifts never thinks, for the moment he began to do so he would put his hand on the wheel and steer his craft into clear water. The worthless lives are without a fixed purpose, and the great multitude who yearly ruin themselves by yielding to temptation and vice in the guise of pleasure are the men who were intended to be archangels, and who have the capacity to become archangels, but who do not recognize these facts, because their intellects are under the influence of habits they desire still to gratify.

In order to fit himself for the best uses a man must recognize several important facts. When he begins to think he begins to be godlike, and soon reaches a level which the animal can never attain. He keeps company with the brute creation longer, for he has caught a glimpse of heroism, of manhood, of God, of eternity. He is transfigured, his body is subordinated to his soul, he has something to do, there is something for him to become, his ambition is roused, and nothing will satisfy him but heaven and his own fitness to enter therein. When he thinks of the Providence above him, of the good God who will lend him something of His own omnipotence in time of need, will send His angels to guide in hours of darkness and guard in time of danger, has asked him to weave out of the pleasures and pains of life, its tears and its joys, a wedding garment with which to enter the

## Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

portals of eternity—when these thoughts fill his mind and are his daily companions he is like a sir knight clothed in mail of steel and able to vanquish any form of evil which may present itself.

A reasonable religion will alone suffice for a reasoning being. We must partake of God's wisdom before we can appreciate God's love. Find out what you can do and ought to do, and you will become enamoured of goodness. There is nothing that equals a conviction as a basis of character. Christ had no doubts, therefore He had no fears. Temptations lose their power when God's face is visible to the seeking soul.

## All Over the State.

The weekly papers received at this office yesterday from all parts of the State are filled with cheering reports of Democratic gains. It is not idle talk, for in all cases the papers can substantiate the claims that they make. Judging from the tone of the weekly press—and on local politics there is no better authority than the country paper—the Democrats are aroused as they have not been since 1876. The odds against them now are really not so great as they were then, and the political developments of each passing day only go to strengthen the conviction of a sweeping Democratic victory in North Carolina next November. One cannot read the weekly papers of the State and believe otherwise.

## Justice in Richmond.

We are reliably informed that about two weeks ago a negro broke into the house of a white man and stole flour, meat and other things. Upon complaint, a warrant was issued by a fusion magistrate. The negro was arrested and carried before the Radical Pop, magistrate, but before he was ready for trial the negro "hit the grit." This did not stop proceedings. The court heard the case and brought in a verdict of guilty. Again the negro was arrested and the cost was "smothered"—65 cents for the court and the deputy, Q. W.
